

432 EVO REFERENCE MUSIC SERVER

roon

5 years 432 EVO: retail price list september 2018

432 EVO MASTER

Best in class music server with high-end USB 3.0 output clocked by a dedicated low jitter superclock board, 4 TB silent HDD on spring suspension system & sata filtering, software jitter tuning including dedicated audio processing core and realtime audio kernel. Bitperfect TEAC ripdrive. Now with boot / metadata SSD.

Includes separate custom high-end external linear power supply with 3 independent buffered ultra low noise ultra fast DC rails for server; USB output, superclock. Logitech Media Server or Roon library server.

Bitperfect output or custom upsampling up to 24/768 with SQi and/or 432 Hz post processing.

Description	MSRP
Ultimate 2 enclosure 432 Hz music server. Color: black. Already includes HWBOOST option: faster quad core CPU + 8GB RAM ideal for Roon.	12.000 €

432 EVO AEON & HIGH-END

Description	MSRP
AEON: similar to MASTER but with 2 Sbooster BotW mk2 linear supplies, one for server and one for usb+superclock. HWBOOST is optional on AEON. 2TB SSHD storage. Color: silver or black.	5.000 €
HIGH-END: similar to AEON but with integrated clock on high-end USB output card instead of dedicated superclock board.	4.000 €

HIGH-END can be upgraded to AEON or MASTER
AEON can be upgraded to MASTER

432 EVO STANDARD

Includes Sbooster BotW mk2 linear power supply, HDMI audio and USB 2.0 audio output. Can be upgraded to high-end, aeon or master later.

Description	MSRP
Entry level music server with 2TB SSHDD storage and with internal rip facility	2.500 €

432 EVO ESSENCE with DAC

Music server with integrated DAC: high-end analog rca + coax & toslink SPDIF outputs up to 24/192 with oven controlled low-jitter clock. Also includes USB 2.0 audio outputs and HDMI audio. Compatible with Roon.

Description	MSRP
2TB storage, Silver or Black with internal rip facility + external Sbooster BOtW mk2 linear PSU	3.500 €
8 channel / 4 zone version of 432 EVO Essence (for hotel / horeca / multiroom)	Contact 432 EVO

Options

HWBOOST: Faster quad core passive cooled motherboard plus an abundance of RAM for Roon All models can now run Roon since 23/07/2018 without the HWBOOST option, but HWBOOST adds more speed to Roon. 432 EVO MASTER already includes HWBOOST. When combining Roon with a NAS instead of using the EVO's internal storage (or when using internal storage + NAS), HWBOOST is mandatory.	250 €
3TB, 4TB, 5TB, 6TB, 8TB, 10TB, 12TB of integrated storage instead of 2TB (4TB on MASTER)	Contact 432 EVO
Roon license 432 EVO comes with 2 bundled library server software packages: Roon and LMS. Switch between both in 10 seconds. For Roon, you need a license.	\$119 / year \$499 lifetime

All models in this pricelist now with upgraded season 2018-2019 features including full Roon 1.5! Not just an endpoint, but full Roon server (Core).
